

# ENERGY STAR® Certified HVAC Equipment Rebate Application Form

The HVAC Program provides rebates for the installation of high-efficiency HVAC equipment to residential customers of JCP&L. This equipment must be installed by a qualified contractor, be ENERGY STAR certified and meet or exceed all additional requirements. Please submit one application per unit.

Please complete this application and email it to [energysaveNJ@clearesult.com](mailto:energysaveNJ@clearesult.com) or mail to:

**CLEAResult**  
**PO Box 339**  
**Iselin, NJ 08830**  
**Attn: JCP&L Rebates**

## The following must be submitted with every rebate application:

1. A paid invoice dated between July 1, 2021, and December 31, 2024, indicating the type of equipment, installation date, purchase price, model number and serial number.
2. An Air Conditioning, Heating, and Refrigeration Institute (AHRI) certificate, including unit model number, capacity and efficiency performance ratings. All minimum efficiency ratings must be met to qualify for a rebate. **If installing an Air Source Heat Pump – Cold Climate system, verify COP rating using NEEP Product List ([https://ashp.neep.org/#!/product\\_list/](https://ashp.neep.org/#!/product_list/)).**
3. All fields, including those marked with \*, must be answered and information must be complete for your rebate to be processed.
4. You must submit one of the following: a copy of the UPC label, distributor’s invoice, photo of the nameplate or warranty registration confirmation showing the model and serial numbers.

**\*All questions must be answered and fields must be completed in order to receive your rebate. Incomplete applications will result in payment delays.**

### HVAC Equipment Terms and Conditions

- Applicant must be a residential customer of JCP&L.
- Rebate applications are valid for qualified equipment purchased and installed beginning July 1, 2021, through December 31, 2024.
- Rebate application must be submitted within 120 days of purchase and be postmarked or submitted online by January 15, 2025.**
- It is the responsibility of the customer to ensure that all requirements for the rebate are met. Failure to provide any of the required information will prevent or delay processing of your application. Please submit one rebate form per unit.
- Rebate payments are based on the equipment installation date. Customers must abide by the rules and rebate levels in effect on the date of installation. Rebate levels cannot exceed the cost of the equipment.
- Purchase must be of qualified high-efficiency electric equipment as defined in the tables in this rebate form.
- The efficiency levels are based on the Air-Conditioning, Heating, and Refrigeration Institute (AHRI) certified performance criteria of an outdoor unit and indoor coil (and/or furnace/blower) working together. These ratings are found on the AHRI directory.org website. All ENERGY STAR certified equipment must be listed at energystar.gov in order to participate in this program. Both the outdoor unit and coil/indoor unit must be replaced and installed as a matched set.
- Payment will be issued to the account holder at the mailing address on record with the utility or to the submitting contractor as assigned by the customer through their signature on this rebate form.
- Please allow up to 30 days from the date all required information is received to process your rebate(s).
- All rebated products must be installed and used at the service (installation) address specified on the rebate application.
- Program procedures, requirements and rebate levels are subject to change or cancellation without notice and are subject to available program funds.
- By participating in the Company's energy efficiency and peak demand reduction programs, customers agree their electric utility will maintain ownership of all Capacity Rights from electric savings measures, which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your electric utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market as appropriate, with proceeds being used to reduce customers' costs for the programs.
- If applying for incentives for natural gas and electric measures at the same time through JCP&L, it is prohibited to apply for the same incentive with your gas company.
- JCP&L and/or their designees including program administrators and evaluation contractors reserve the right to review installations to verify completion and measure energy savings to ensure compliance with all program requirements. Such reviews will be made at a time convenient to the applicant. Misrepresentation of installation location or measure eligibility may result in forfeiture of the rebate.
- Installations must be completed in accordance with all laws, codes and other requirements applicable under federal, state and local authority.
- You are urged to seek appropriate consultation concerning any tax liabilities that could be associated with the receipt of the rebate.
- JCP&L and/or its designees, including program administrators, do not endorse any particular manufacturer or product as part of this program.
- JCP&L and CLEAResult, their parents, subsidiaries, affiliates, officers, employees, contractors and agents assume no responsibility for the performance of the equipment or equipment warranty, the quality of the work, labor and/or materials supplied and/or the acts or omissions of the participating contractor.
- The customer hereby agrees to indemnify, defend and hold harmless JCP&L, their parents, subsidiaries, affiliates, officers, employees and agents from any and all liability associated with this project.
